

Remarks

The claims and specification have been amended to correct obvious errors. SEQ ID NOS: 106 and 108 have been removed from the list of polypeptides of the invention and SEQ ID NOS:103, 105, 107, 109, 111, and 113 have been added to the list of polypeptides of the invention. SEQ ID NOS: 106 and 108 are clearly shown as polynucleotides and SEQ ID NOS:103, 105, 107, 109, 111, and 113 are clearly shown as polypeptides in the Sequence Listing.

SEQ ID NOS:103, 105, 107, 109, 111, and 113 have been removed from the lists of polynucleotides of the invention and SEQ ID NOS:106 and 108 have been added to the lists of polynucleotides of the invention. SEQ ID NOS:103, 105, 107, 109, 111, and 113 are clearly shown as polypeptides and SEQ ID NOS:106 and 108 are clearly shown as polynucleotides in the Sequence Listing.

Applicants respectfully request entry of these amendments to rectify obvious errors in the specification and claims. The errors are obvious when the Sequence Listing is compared to the lists of polypeptides and polynucleotides of the invention in the specification and in the claims.

Respectfully submitted,
McDonnell Boehnen Hulbert & Berghoff
